

Guiding Questions for Country-Specific Work Groups

- What are the 2-3 most important topics to improve the governance structure?
- What are the prerequisites for achieving this?
- What further steps have to be taken?

Important topics to improve structure

DGB

- What are the 2-3 most important topics to improve the governance structure?

1. Coordination:

- Relaunch a general coordination mechanism of the various actors in the system
- Match the demand for professional competences and needs of the productive system with the training offer, in particular on the regional level

Important topics to improve structure (ctd.)

DGB

- What are the 2-3 most important topics to improve the governance structure?

- 2. Greater participation of the social partners in the choice made by the authorities for VET training profiles and of the contents in order to improve the orientation of youngsters

- 3. Real integration of school education system and vocational training systems

Prerequisites

1. Create a committee to coordinate the various decision-makers
2. Work towards bigger consciousness of the worth of training among trade unionists so that they attribute a higher priority to the role of training during the whole working life
3. Give priority to training issues during collective bargaining

Further Steps

Pilot Project in Piedmont / Italy

1. Conclude an agreement between trade unions and the artisan and commerce employers associations for the promotion of the apprenticeship system (number of contracts, training conditions, remuneration etc.)
2. Exchange study visits on apprenticeships in micro and small enterprises. The start will be made by a visit from German colleagues to Italy.
3. Enlarge the project to the region of Tuscany
